**PURSuing SUCCESS THROUGH THE JOY OF LEARNING**

April 26, 2021

Dear School Families:

I am very pleased to inform you that the rebuild of our school is proceeding. Starting in early May, work will begin to prepare some of the school grounds for the construction of a new Argyle and St. Pius X joint-use school facility.

To ensure the continued safety of our students, staff and the community, permanent fencing in the excavation/construction area will be installed at the end of April. This fencing will stay in place until the construction of the new schools is completed in March 2023.

This work will be a minor inconvenience and will limit the space we currently have for outdoor activities. The Junior Playground will not be affected and all entrance and exit doors will continue to be safely usable. When students return to in-class learning and in the next school year, our staff will ensure that students can continue to have outdoor learning and recreation opportunities. We will strive to make use of the park amenities that our school community is so lucky to be near. We will share these details within the next school year.

Moving forward, all students will enter the school grounds via Lakeview Ave. Senior students will walk through the junior playground to access their doors rather than going around the gym.

If you have any questions, please do not hesitate to contact me.

Katherine Black

Principal of Argyle School
